<b>ALERT</b>
<b>Urgent care centers should be utilized instead of emergency rooms when medical care is required after duty hours for Lyster beneficiaries. Emergency rooms are designed to treat medical emergencies such as heart attacks, accidents or other emergencies that occur when urgent care centers may be closed. Remember, Utilization of local urgent care centers vs emergency room saves you wait time and possible payment of medical claims. You must contact the after-hours-nurse line at 877-418-0983 to obtain referrals for urgent care visits</b>
